Verse One: Raekwon the Chef

Machine gun rap for all my niggaz in the back
Stadium packed, linebacker nigga flashback
See through yellow lines
Rock a fly jersey in the summertime God
Magic marker rap, bleed Benetton
Relaxed, wrote this, comin at cha crab ass cope
and snatch ya ice off, chillin in the back, throw the
lights off
Waves, water blend, rhyme flow in slow motion
Thick snare, I'm feelin like a snail in the ocean
What's your wish? Wanna Kringle like Kris?
Melodic single, dark snap a nigga just like fish
You fucked up, some rich niggaz you done test yo
Select the wrong apartment, and niggaz pulled up your
dress
Style molest that, canal chain nigga where ya vest at
Flex'll make me wanna bless that, yo
Saddam Hu-sane niggaz light the torch, we flamin
niggaz
Autograph that, flatten all the main niggaz

Chorus:

[All] It's Yourz!
[RZA] The world in the palm of your hand
[All] It's Yourz!
[RZA] Twenty-three million of useful land
[All] It's Yourz!
[RZA] The seed and the black wo-man
[All] It's Yourz!
[RZA] Double LP from Wu-Tang Clan
[All] It's Yourz! (2X)

Verse Two: U-God

Yo, super freak physique. like Raphael Saadiq
Baby love the ganja leaf, everyday of the week
Super friends wake up, deluxe gourmet beats

The night is right, I might find me a suite
It's a quarter full moon, now I ride with my swoon
Well groomed, dance hall packed, full room
Lady move, peep my glide, peep my zoom
Keep in stride, smoke the lah smoke the boom
Feel the fumes, consume toxic tunes
Hell bound, species forty ounce typhoon
The ultra-violet scream machine move your body touch
The totem pole wobble Ark builders God rush
Beams of light, stop ya breathin -- it's huntin season
Honey eye-ballin down for no reason
Grab her close, play post, wind and wax floors
Never mind the laws, cause tonight
[All] It's Yourz

Verse Three: RZA

Stop the fader of the RAM, pass my watts through my
pre-amp
Them can't stress the beat vamp the shit'll get blam
at full throttle, hot lead propels throughout my nozzle
Crack your soul like bottles, leave you stiff as models
You fag, you couldn't pull one drag -- off my blunt
You couldn't punch your way out of a wet paper bag
with scissors in your hands -- bitch, the RZA
I stand close to walls, like number four the lizard
Enchant a few solar panels, blast off like Roman
Candles
Rap vandals, stomp your ass like Ralph McDaniels
You cocker spaniel dogs, can't fuck with our catalog
Put your lights out and leave your brain inside a fog

Verse Four: Inspectah Deck

It's only natural, actual facts are thrown at you
The impact'll blow trees back and crack statues
Million dollar rap crews fold, check the sick shit
explicit, I crystalize the rhyme so you can sniff it
We live this, fitted hats low conceal the Crooked I
No surprise, verbal stick up -- put em high
Rebel I, outlaw, split second on the draw
Blow the door off this shit, like bricks you see fall

Chorus

Verse Five: Ghostface

Check out my beaver, baby blue glock in the safe
Seems Darchy and the God and get ski roll weight
We hold a belt Son, that's my word
Spot a rapper run him down, throw him out in the third,

yo check it
I think like the man behind a register
Evergreen smokin estates, rhyme and power made me
treasurer
With third down, six to go flash his strobe lights
I'm open RZA hit me off lovely and I love him
With root beer thoughts, here's a tennis court
for your birthday, the babyface of rap politic with Sade
Avenging eagle crooks rock the "W" in Spiegel books
Annheiser Busch kings came through, and stopped
your whole jooks
Spitfire Kangols, watch Tony train a gang of hoes
Painful like hearin the news, like when your man go
Ends blow, windy at times watch the room sheisty girl
Love to sit out this song, now watch your water break

Chorus: latter 1/2
