[Hook: Chamillionaire]

Show a big timer love, when you see me ridin dubs  
Platinum chain diamond up but Please Don't Stare At Us  
When you know I see you, peepin me I'm peepin you  
Find a better thing to do and Please Don't Stare At Us  
Sittin crooked on the chrome with a throwed yellow  
bone  
I'm with her and you alone, Please Don't Stare At Us  
Ice sprayed on my teeth, deep freeze around my neck  
Baby get yo mind correct and Please Don't Stare At Us

[50/50]

Mo' rocks than a dope fiend on my color changin ring  
In my color changin car I got color changin screens  
Somebody's watchin I feel them breathin from the  
sidewalk  
Chamillion, when I park the car, passed when my men  
talk  
Do not tug on my pocket and then bug me about it  
'Cause if I got it to give, I ain't stingy I'll drop it  
50 slash half a hundred, cash checks and stay stuntin  
X-in my house with a gun to go get it like I'm huntin  
Eat lunch on platinum plates, platinum knife to stab  
steak  
Who said money don't grow on trees? I rake my yard  
with platinum rakes  
Pause, hold up, stop wait it's what they beg me to do  
It's either Platinum FUBU, or Iceberg with Pikachu  
It's the 50/50 Twin, 23's when I spin  
I say You wanna lick my chain? She say You tease me  
again  
No key to the Benz 'cause it's voice activated  
When my brother get off like I know haters have to hate  
it

[Hook]

[Paul Wall]

Here I come, turn your head, why your girl turnin red?  
You remind me of the type of person that would turn  
Fed

Turn your frown into a smile, she don't like you take a hint  
Turn the corner, everybody stare at color changin tint  
Alot of money I spent to make, blind people squint  
I tipped a waiter enough money to pay for his rent  
I hauled away, listen how my horn be oinkin'  
My diamonds got more points than a point guard pointin'  
I'm babelous them sunglasses better cover your eyes  
I drive past, jaws drop and eyebrows rise  
I hold it down like sprint's mouth lookin like gold bricks  
Lookin like stalagtites, hangin off my lips  
I had aspirations of ballin ever since I was six  
My record's like mosquito bites every DJ wants to itch  
And every time people starin', at Paul Wall's mix  
They call an ambulance to help them get they face unfixed

[Hook]

[Chamillionaire]

When it come to ridin chroome, we some veteran pros  
Matter of fact I'm livin larger than David Letterman's nose  
Don't play stupid and act like I never said it before  
I'd rather chase a set of them vogues, instead of them hoes  
Whoaaa Kimosabe, find me in the Denali  
Or hoppin' out the Impali, if ya sweatin it's probably  
Not the damn sun it's cuz heat is strapped to my body  
Whoaaa Kimosabe, think I'm bluffin then try me  
Mirror mirror in the car, I'm watchin all of y'all  
So I can see who's plottin on me when my twankies crawl  
You starin at us dog, that boy Lu Hawk is not  
The type to let some drama pop and just sit back and watch  
Niggaz just sit back and watch, while we sit back in drops  
Haters see more red dots than a kid with chicken pox  
If you want it, its whatever you haters need to go get a Life, we cheddar getters for 2k1 and forever  
Whoaaa Kemosabe, get your dumb brain corrected  
When you see a color changin necklace you better respect it  
Uh Huh
