It's like you don't know if your dreaming.....
It's just so right...

I don't know what it is.....It just feels right...
Something not understood.....It just feels right.

I dunno what it is....But it just feels right.
I don't know what it is....It just feels right.
Don't know what it is...It just feels right.
I don't know what it is....It just feels so right.

I don't know what it is....It just feels, feels...
I don't know what it is....It just feels right...
I don't know what it is....It just feels right...
I don't know what it is....It just feels right.
