"When I Get You Alone - Lita"

Spoken: Let's go!

All alone in my
bed tonight
I find myself
dreamin' of all the things I might
do to you and
do for me
behind closed doors
where nobody else can see

Chorus:
I know when I get you alone
there's gonna be trouble
Just hope that I don't lose control
I'll have you seein' double

Fantasies and
dangerous dreams
all have my head
spinnin' in a world of schemes
what to do
when it's
up to me
take you places you have never been

Chorus

Bridge:
I know when I get you
I know when I get you
I know when I get you
I know when I get you....

All of my life
they told me I'm wrong
(Spoken: All my life, they told me I was wrong)
I thought they were right
then you came along
(Spoken: I thought they were right... then you came
along)

I finally believe
and now I can see
(Spoken: I finally believe and now I see)
I was right all along
it brought you to me
(Spoken: It brought you to me)

haha

Spoken:
Ok
now here comes the part
where you're in trouble
seriously ok?
there's no way around it now
alright!

Chorus

Bridge

No way around it now..
