SNATCHED DOWN performed by JoBeth Taylor, written by Deborah Gibson

Chant:

Snatched down is the term you need to know to be cool

If you're gonna play the game, you gotta play with my rules

Snatched down means fierce from head to toe

No one can tell you when you got it-

You just know

You gotta be snatched, boy

Verse 1:

I'll be ready, so pick me up at ten

So long, honey, I'll see you then

Got some last-minute shopping

I'm gonna knock you out

I'll show you what shock is all about

Bridge 1:

Got a cute strapless number and some high-heeled shoes

And I'm looking like somebody's - bad news!

Chorus:

Snatched down, baby

All the way around

Looks don't count so long as you're not looking like a clown

Won't be nobody's business

Won't be nobody's fool

I won't be seen with nobody

Who isn't looking...

Cool!

Verse 2:

___ anything ___ true

There is a thing looking (looking) at you

It's your reflection on the personality

Need an example? well, take a look at me

Bridge 2:

What to be, what's been

What's out, what's in

Don't you come on in looking like homemade sin

CHORUS x2

Fashion statement, yeah

Let's get down and dirty, boy - owww!

CHORUS x5

Cool
