YOU GOT A GOOD THING by JoBeth Taylor

Uh-huh-huh

Nobody told me - had to find out for myself

I caught you messin' 'round with somebody else

Thought I was dreaming but I couldn't [?]

That's when I knew it wasn't in my head

Break:

I treat you better than I ever treated me

I can't imagine why you want to set me free

It ain't going to be easy lettin' my love go

Chorus:

When you know you got a good thing (don't you know?)

Don't you know you got a good thing (why don't you know?)

If you know you got a good thing (don't you know?)

Why don't I feel so good?

Why don't I feel like I should?

You knew you hurt me - it's written on my face

I can't believe you let her take my place

Second's no big thing - a temporary fix

There's no way she could steal your heart with just one
kiss

With my devotion, I was always on your side

Never a moment when I dare to say goodbye

So my heart'll be broken letting my love show

CHORUS

Why don't I feel like I should?

Such a, such a, such a good thing

You got, you got, you got a good thing

Such a, such a, such a good thing - woah...

BREAK

CHORUS x 3
