Down down down came the world  
I went round round round in a whirl  
I built every dream around one girl  
And then down down down came the world

She must have loved a little to be mine so long  
How could lips that kiss so sweet lie and be so wrong  
Our love was just the pattern of the perfect boy and girl  
Now I've lost my every dream in this world

Well down down down came the world...  
[ piano - steel ]  
Oh down down down came the world...  
Yes down down down came the world
