### "All Over Again"

Visit ["All Over Again"](#) on MotoLyrics.com

Boy you pull me in and you push me away  
Listen up, I've got something to say  
Don't raise me up on mountains high  
Just to hang me out to dry, but I,

I'm thinking of leaving you behind  
Start over again on with my life  
Just when I gotten over you  
Something happens and it all comes rushing back

And I feel it, and I feel it and I feel it all over  
And I feel it, and I feel it and I feel it all over again

Oh you build me up just to tear me down  
Well listen here, I ain't stickin' around  
So you say you are a hell of a man  
I don't think you understand that I,

I'm thinking of leaving you behind  
Start over again on with my life  
Just when I gotten over you  
Something happens and it all comes rushing back

And I feel it, and I feel it and I feel it all over  
And I feel it, and I feel it and I feel it all over again

Drivin' in my car (Drivin' in my car)  
The music takes me far (The music takes me far)  
And I'm feelin' strong  
Turn up the car radio (Turn up the car radio)  
The only friend I know (The only friend I know)  
Till they play our song (Till they play our song)

And I feel it, and I feel it and I feel it all over  
And I feel it, and I feel it and I feel it all over again  
And I feel it, and I feel it and I feel it all over  
And I feel it, and I feel it and I feel it all over again  
All over again
