Since you ran away  
I've been beside myself in every way  
Trying hard to get you off my mind  
I know that we agreed  
It would be cool to take some time away  
Now the reason is just too hard to find

(I can't stop) crying  
(I can't sleep) thinking of you

Wishing that I wasn't alone  
(can you hear me)  
Wishing that I wasn't alone  
Oh yeah

Something strange has happened to me lately  
Baby can't you see  
Something that my eyes won't let me hide  
Nothing seems to get to me  
In other people's company  
Wishing I could leave them all behind

(I can't stop) crying  
(I can't sleep) thinking of you

Wishing that I wasn't alone  
(can you hear me)  
Wishing that I wasn't alone  
Oh yeah
