Its in the wind
Noise and steam
Â'neath your skin
And in your dream
ItÂ's who you are
ItÂ's how you feel
A guiding star
Your driving wheel

Sing
(Let it take you
Let it make you
Never break you down)
Sing
(Let it mold you
Let it make you bold
And never hold you down)
Sing
Sing, your heart out

Its on the street
The neon glare
The hard concrete
The cold night air
Its in your voice
The way you sound
Have no choice
But come unwound

Sing
(Your songs of truth and pain
All the things you canÂ't explain)
Sing
(The way you feel inside

Let the music be your guide)
Sing, your heart out

Sing it like you hear it
Like you have no need to fear it now
Sing it like you know it
Like youÂ're not afraid to show us how

Sing from somewhere way down deep
Sing and make the angels weep
Sing and open heaven's door
Sing 'til you can't sing no more

Sing
(Your songs of dark and light
Make your mark with all your might)
Sing
(Your songs of hope and fear
Sing the song that sent you hear)
Sing, your heart out
Sing
Sing
Sing, your heart out
Sing
Sing, your heart out
