I write you this letter
So you'll always know
just how I feel, feel about you
Seem to never be able
just to hold you
And look in those eyes
Always thought you could read my mind
So grateful

Chorus
I found you
I found you
I found you
He said
I found you
I found you
I found you
Yeah

So as you read this letter
Know that you mean the world
And I'm so thankful
for you making me better
Never knew love before
Loved, lost and loved again
Then I found you

Chorus
I found you
He said
I found you
I found you

I loved you from the first moment
I laid eyes on you
He said
I took one look at you
and girl I knew

I found you
He said

I found you

I found you

We were both at the party
You were standing there all alone
your back to me
We both so far from home
In a place I'd been a thousand times
You'd been there too
but I never knew
You turned around stared at me and
I stared back at you

Chorus

I found you
I found you
I found you
I found you

The most beautiful face I'd ever seen he said
Eyes as deep as the deep blue sea
And one look into them girl and I knew
You said hello and my single days were through
I could say nothing
So we stared at each other and couldn't leave

I found you
He said
I found you
I found you

And that was the day
I met my soul mate
My friend to the end
God's fate
Every dream I had would now come true

Cause I found you
He said
I found you
I found you
