"Friday Night"

Monday morning gettin' ready to go
All dressed up for that fashion show
Tuesday's bell gettin' ready to ring
Time for work the same old thing
Friday Night
Friday Night on the town
Friday Night
Nothing can keep us down
Friday Night
Gettin' wild all around
Friday Night
Wednesday's past Thursday's here
Weekend's coming and it's oh so near
Friday's slow tension gettin' high
Taking a test just tryin' to get by
Saturday morning couldn't get out of bed
Legs couldn't move from pounding in my head
Waited all week for that night on the town
How can one night leave me feelin' so down...
