[verse 1]

Alone in a room
Alright in a crowd
All that I see, is you and me
We're deeper than skin
We're outside the box
Forever free

No need to keep it a secret
You only gotta believe it
Wherever we go
Whatever we do
We'll always be true

[Chorus]

With pride in our hearts
We're putting it out there
For everyone to see
It tears us apart
We're putting it out there

We know we're not alone
Don't fight it anymore
Tonight the world will know who we are
We're putting it out there

[Verse 2]

I'm all wind it up
There's no coming down
I'm sure of the way that I'm feeling
There's never enough, of what that I love
Like air to breath

No need to keep it a secret
You only gotta believe it
Wherever we go

Whatever we do
We'll always be true

[Chorus]

With pride in our hearts
We're putting it out there
For everyone to see
It tears us apart
We're putting it out there

We know we're not alone
Don't fight it anymore
Tonight the world will know who we are
We're putting it out there

[Bridge]

I'll bear, I'll bear
What I'll bear
We're out there (We're out there)
There, there, there

We are a harmony
Like angels sing in the sound
Maybe we're meant to be
Just the way we are

[Chorus]

With pride in our hearts
We're putting it out there
For everyone to see
It tears us apart
We're putting it out there

We know we're not alone
Don't fight it anymore
Tonight the world will know who we are
We're putting it out there
