Honey, I wouldn't mind
I tell you that you're running round my head
But love is hard to find
I've lost you and it's tearing me to shreds I don't wanna
be your free train coming round
I'm gonna be your [Incomprehensible]
Wrap me in your arms for once Take me, take me,
baby, I'm like a hunger
I could be a singer, let me push you under
Don't want no other, baby, I got you covered
Our love is growing and getting younger Ooh, ooh,
ooh, still getting younger
Ooh, ooh, ooh, still getting younger Baby, I'm a bridge
between this huge divide
Baby, I'ma be your astronaut
Bring you back to earth sometime Take me, take me,
baby, I'm like a hunger
I could be a singer, let me push you under
Don't want no other, baby, I got you covered
Our love is growing and getting younger Ooh, ooh,
ooh, still getting younger
Ooh, ooh, ooh, still getting younger I'm not lonely, I just
need you
Through this empty space again
I complete you and you could never turn me away
Our love will never end I love to hear you say my name
Calling out to me like a record
Promise you'll always be the same Take me, take me,
baby, I'm like a hunger
I could be a singer, let me push you under
Don't want no other, baby, I got you covered
Our love is growing and getting younger Take me, take
me, baby, I'm like a hunger
I could be a singer, let me push you under
Don't want no other, baby, I got you covered
Our love is growing and getting younger Ooh, ooh, ooh
