He looks right through me like Im not there
Hes helping the guy with heavy metal hair
Dont ignore me, it's not nice
I dont need any of your playing advice

Girls go guitar shopping
Yeah they go guitar shopping
Girls go guitar shopping
Yeah they go guitar shopping
Girls go guitar shopping
Yeah they go guitar shopping
Girls go guitar shopping
Yeah they go guitar shopping

The man in the corner thinks hes Jimmy Page
Hes embarrassing for his age
His heads so big it might explode
And he plays a guitar he can never afford

CHORUS

BRIDGE

The volume's high and there they are
Watching me play their best guitar
Think that Im a one chord wonder
Ears will bleed when I steal their thunder

CHORUS
