See my fingers doing the talking  
Get the message and do the walking  
You old creeps have had your day  
Im not listening to a word you say

I dont care what you say  
Im not listening anyway  
I dont care what you say  
Im not listening anyway  
I dont care what you say  
Im not listening  
Im not listening

Years and years of school degradation  
Fanned the flames of isolation  
Brain dead staring at the window  
Who needs this crap, who said so?

Chorus

Bridge

Chorus

No more misery  
Stuff your French and History  
Were playing all day long  
Listen good, youve got it all wrong
