Many, many guys and girls
All real beauties
Everybody making a stab
They hurt themselves

Singles rule the world
Feeding on fresh blood
One track, eye below
The belt

All in a line
All in a line
They're all in a line
Like adult books

I don't understand
Jackie Susann
Meant it that way

Adult books
I don't understand
Jackie Susann
She meant it that way

Clifford shackles Jane
Throws her on the floor
She says, no, no, yes
And he cuts the chains
Do plenty people go for tomato, yes
But he just goes for that special girl who says, no

All in a line
All in a line
They're all in a line
Like adult books

I don't understand
Jackie Susann
Meant it that way

Adult books
I don't understand

Jackie Susann
She meant it that way

All in a line
All in a line
They're all in a line
Like adult books

I don't understand
Jackie Susann
She meant it that way

Adult books
I don't understand
Jackie Susann
She meant it that way

Adult books
I don't understand
Jackie Susann
She meant it that way

Adult books
I don't understand
Jackie Susann
She meant it that way
