Verse One (Tamika):

Time has been short since you left me,
So I can't help but think,
Of how things between us used to be.
You were a piece of my heart,
And I thought we were swell,
Until you told me you were leaving,
To find a better life for yourself.
Oh I...

Chorus:

I wish we were together again,
Loving the way we used to love,
Boy I miss you much.
I wish we were together again,
Oh how I'm missing you,
It's so hard for me to say goodbye.

Verse Two (Kandi):

You know that I love you,
And for you there ain't nothing in this world,
That I won't do.
If you would only come back to me,
And let me show you how loving me could be.

Bridge:

(Tiny):

I, I've got feelings,
But you act like you don't care,
You treat me so unfair.

(Tamika):

Love has no meaning,
Since you walked right out my life.
You've touched a part of me,
Can't you see that I'm in need of you?
