I left the light on
Went out of my house
And sat on the stairs
The TV plays MTV
From somewere else

The moon will carry on
Goin' up and down forever

The channel is changed again
A voice of a man
Is telling the news
A hijacked plane
Two children cryin' in the rain

The moon will never sacrifice
Its energy and light

The war in the East
Is still goin' on
To kill anyone
A burning car
And bomb attacks in Russia
