Open your eyes  
And you will realize  
We are what we are

Open your eyes  
And you will realize  
We are what we are  
We're going to fight  
To fight for our right  
We are what we are

I want to play a melody  
I want to sing a song  
Come, sing it with me  
A sweet melody

We want to shout it out  
That we are going to be free  
Come sing it with me  
We're going to be free

We want to feel like being free  
Free as a bird can be  
It's only a dream  
But dreams can come true

We want to leave the bad times  
We leave everything behind  
We leave everything behind  
And we sing

Open your eyes  
And you will realize  
We are what we are
