India, India, India
India, India, clarified butter from the holy cow
India, India, India

I'm a pauper bereft of spiritual vision
Looking for a guru such a decision
India, India, India
Clarified butter from the holy cow
India, India, India

I'm a conscious consumer
but there's nothing to consume
Lotus flowers are still in bloom in
India, India, India
India, India, clarified butter from the holy cow
India, India, India

India, India
India, India
