Sophia look like a witch
A beautiful witch is she
Sophia look like a witch
Hidden form in the name of chastity

Sophia wears a crucifix
Christ hung round her neck
Sophia wears a crucifix
Crucifix effect

Sophia lies between black sheets
Between black sheets she rests
Sophia rises while the cock-a-doodle-doo's a calling
And in black robes she's dressed

Sophia look like a witch Sophia look like a witch (repeat)

Sophia rises while the cockerel's mourning
As the sun sets in the West
Sophia is a mother with a child at her breast

Sophia look like a witch Sophia look like a witch (repeat)
