Oh! I'm looking at you
Can't control myself
Nothing, but pain for me

* Wipe your tears from your eyes
Just leave and forget me
No need to be hurt anymore

** Go away from me now
I don't know 'What is love?
No need to be hurt anymore

You said, "I miss you so much"
"Everynight thinking of you
and facing loneliness"

*** But when you feel sadness
never can I stay with you

X-Japan
Unfinished

I'm not the one you need
Close your eyes and forget me
There's nothing I can do anymore

I lost my way

I've been walking in the night of tears
There I found someone was holding you
As the night was falling down
With my love also vanished my vision of you

My heart is cold now

* repeat

You said, "I need you always."
"Everyday thinking of you
and living loneliness."

*** repeat

** repeat

Can't find my way
