Play me some music and pour me some wine  
I'm in the mood now, got love on my mind  
I want you to know, that I like it real slow  
And whenever you're ready, you can slide off my  
clothes  
And search my body, anywhere  
I'm yours tonight, make it right  
Baby just take me there

Chorus:

Take your time and work me slowly (work me)  
Cause I'm the kinda girl, that needs the kinda guy that  
can last  
Don't need a man around, if he's throwin down too fast  
You gotta work me slowly

Now change your position, and keep it right there  
Just go with my motions, run your hand through my hair  
I hope you don't mind babe, if I let out a scream  
Cause it's feeling too good to me, it's more than I  
dreamed  
It's more than pleasure, it's ecstasy  
Up and down, round and round  
Baby just come with me  
Take our time

Chorus

Baby in the morning, we'll do it all over again  
I don't want this feeling to ever end (no, no) (no, no)  
I can't believe how you're loving me, you give me (ohh)  
I can't believe you're still stroking me, cause baby your  
taking it off

Chorus (repeat 2x)
