The the world to me, and all the things
That I want to see
You're the star that shines, the twinkle at night
To guide my feet

I was blessed the day I found you
Gonna build my whole world around you
Everything's good, girl, and you're all that matters to
me

You're the sun that glows to keep my days warm
When I'm so cold
You're the moment that lasts when life seems so
dreary
And love seems so old

I was blessed the day I found you
Gonna build my whole world around you
Everything's good, girl, and you're all that matters to
me

You're the sun that glows to keep my days warm
When I'm so cold
You're the moment that lasts when life seems so
dreary
And love seems so old

I was blessed the day I found you
Gonna build my whole world around you
Everything's good, girl, and you're all that matters to
me

You're my everything, you're my everything
You're my everything, you're my everything
You're my everything, you're my everything...
