1) Did my heart once fly like a bird?
Did I once have you near me?
Look at me now, I'm on the ground
Telling myself it can't be true

CH) But I think that I still love you
What am I to do?
I can't stop thinking about you, no
I can't get over you
You and I are somehow in my heart together still
I think that I still love you
And I always will

2) And now I wake up alone
In the bright early morning
Where you once slept, there's nothing left
The sun's streaming in but I'm so cold

CH) And I think that I still love you baby
What am I to do?

I can't stop thinking about you, no
I can't get over you
You and I are somehow in my heart together still
I think that I still love you
And I always will

Bridge) Every day I miss you even more
I keep lying to myself that I don't need you
No more, no more

CH) But I think that I still love you baby
What am I to do?
I can't stop thinking about you, no
I can't get over you
You and I are somehow in my heart together still
I think that I still love you
And I always will (repeat)
