Give me something to hope for (to hope for)
Give me something to die for (to die for)
Cause you're not mine
And you're not mine
Give me something to cry for (to cry for)
Give me something to go for (to go for)
Cause you're not mine
And you're not mine

And it's all over it was ending
Stop this now lets stop pretending
And I'll stay true, too what I do
And it's all over it was ending
I'll stop this now lets stop pretending
A big fuck you, to all of you

Give me something to look for (to look for)
Give me something to hope for (to hope for)

Cause you're not mine
And you're not mine

And it's all over it was ending
Stop this now lets stop pretending
And I'll stay true, too what I do
And it's all over it was ending
I'll stop this now lets stop pretending
A big fuck you, to all of you

And it's all over it was ending
Stop this now lets stop pretending
And I'll stay true, too what I do
And it's all over it was ending
I'll stop this now lets stop pretending
A big fuck you, to all of you
