"A Little Cry For Help"

Visit "[A Little Cry For Help](#)" on MotoLyrics.com

I fell into this black hole
Pull me up. Save med from myself
I need a torch
There's no darkness, no light

A little cry for help
One face, one touch
Is all i need
A faith that doubts
One hand, one step
Is all i need

If something goes wrong
I guess there's only me to blame
I'm stuck in my own behaviour
Now the time is running out

Why won't anybody see me?
Maybe no one out there wants to
Why won't anybody hear me?
Maybe no one out there listens
