Ode of sublimity, seem to the guide
My tryst of adumbration, seance of rebirth
Awake thoughtfully, ascent in solitude
Perfervid for her blessing, murmuring with turpitude

Enigma macabra, subserve of no-compassion
Proxima penumbra a grimgift of dignity
Et mentis nostrae tenebras gratia tue
Visitationis ilustra ouriaed acrimonia

Dea mater effluvium
Nigrum, nigrus, nigro
Sine ut mortui
Sepeliant mortuos suos

Carnificina-emerges between your confused eyes
Of adaptation to evaporation, nigrification's purge
Transmutation, mortification... a desolation
Of the eternal absolute

Dea mater effluvium
Nigrum, nigrus, nigro
Sine ut mortui
Sepeliant mortuos suos

Calavaria invades the whole hollowing extreme of the
devouts
Segmentation, a deformation... a liberation of joyless
Deprivation, abomination... evolves the internal
absolute!

"clarifica mi funebre gozo, placer inmundo sin
clemencia...
Que tu gelido sentir se paraliza...
Con el solido expectro de tu presencia...
Oh! sagrado sea tu brevaje de malevolencia,
Que desborda los mas oscuros temores...
Tomad lo que te pertenece de mi escencia...
Y sembradlo en lo mas oscuro de tus ardores"
