Which year are we in?

Dann bin ich wieder aufgewacht
wieder aufgewacht
Dann bin ich wieder aufgetaucht
wieder aufgetaucht

Can't you hear the alarm?
Can't you hear the alarm?
Because you see me so calm
But I can hear the alarm
It has been a long,
long fight to bring back the dark to the light
How will we go on, I'm walking along -
How will we go on, turn the radio on
How will we go on, press "on" & then run
How will we go on?
So we're born again,
but far apart long distance
But I'm on my way,
ready to disappear in an instance
so this is the time & place

Same procedure, same weapons, same face
Same problem, same planet, same race
Ring the alarm, the next generation is coming
Ring the alarm, the X generation is coming
Ring the alarm, the best generations are coming
Ring the alarm, regeneration is coming, is coming
Ring the alarm, for the next generation is coming
Ring the alarm, the X generation is coming
