[Chorus:]

(You)

Why do we fight?

Why do we cry and break up?

(Me and you)

We was mean to each other

We turn around and we make up

(There's not another two)

Give her a kiss

Give her a hug and tell her you love her

(Just me and you)

Hey, tell her you love her

Man, tell her you love her

Don't let her run away, cause you gon' want her back

Don't let her run away, cause you gon' want her back

now

Don't let her run away, cause you gon' want her back

Don't let her run away, cause you gon' want her back

now

All the things that we been through and

All the times I stood by you, I

Don't know what the hell to do

Cause my mind is goin' and

I'm twisted over you

Baby, why do we have to fight?

Arguin' and fussin' all night

Can't you just finally realize

That I can't go on livin' this life?

I'm so sick and tired of tryin'

Knowin' that your ass be lyin'

When I ask you "stay", be denyin'

And I'm the one who's always left cryin'

You broke my heart in two, now baby

I thought I was your special lady

Everything I thought was wrong

And now it's gonna be too late

Cause now I'm gone

[Chorus]

Man, I can't keep expressin'
My feelings through these songs
I never did knew what I had
Until it was gone
And I still feel the pain and love
Deep down in my bones
It's like another one comin'
And another one is gone
And I'm tryin' so hard
To be the man that I is
And always losin' my love
That only bring a man to tears
What if I show you I care
Would you be here with me still?
Love is pain, girl
And it's most destined to kill
I'm a never tell a lie
I'm a always keep it real
My body can't take the pain
And this what my body feel
I toss and I turn, girl
Like each and every night
Cause everytime we together
Are we doin' this right here?
I want you to go
I want you in my life
And I need you in my life
And we can make it a'ight
From the dark to the light
You my art, you my life
In this world, when it twirls
You my girl, you my wife
I want you to go
I want you in my life
And I need you in my life
And we can make it a'ight
From the dark to the light
You my art, you my life
In this world, when it twirls
You my girl, you my wife

[Chorus]

Put up with your nigga every night and
I just wasted all my time cause
You just left your girl behind
And I guess it's time for me to unwind
Now you done crossed the line, I'm
Tired of hearin' you accuse me of one lie
You're the one who sat here and cried
All alone and almost every night

Can't believe you lied to my face
Actin' like your ass be in place
Now the trust is gone and I hate
The memories that we have up to date
Love you unconditionally
But you play your mind games with me
What goes around comes back around
And baby, when it does
Just think of how you did me

Don't let her run away, cause you gon' want her back
Don't let her run away, cause you gon' want her back
now
Don't let her run away, cause you gon' want her back
Don't let her run away, cause you gon' want her back
now

[Chorus]

Why do we fight?
Why do we cry and break up?
(Me and you)
Don't speak to each other
We turn around and we make up
Give her a kiss
Give her a hug and tell her you love her
(Just me and you)
Hey, tell her you love her
Man, tell her you love her
Don't let her run away, cause you gon' want her back
Don't let her run away, cause you gon' want her back
now
Don't let her run away, cause you gon' want her back
Don't let her run away, cause you gon' want her back
now
(You, me and you
There's not another two
It's just me and you)
