#### English translation

a genius wasn't made in a day!  
02, 03, 05, 07, 11, 13, 17, 19  
23, 29, 31, 37, 41, 43, 47, 53  
59, 61, 67, 71, 73, 79, 83, 89  
97, 101, 103, 107, one, two,  
three, all right! [1]hey, have you ever felt so scared  
that you couldn't budge a toe?  
i see... it would appear that i don't possess such  
emotion  
under status quo, there's nothing that i cannot do  
summing it up, there's no doubt about it -- i'm number  
one!my records dominate every event on sports day!

my novel ideas for the cultural festival reap in hefty profits~  
all i gotta do is give the word to dispatch the student council!  
when i turn around, there's you,  
a fanciful heart-throb don't turn those sinful eyes on me like that  
i fail to see where i'm going; that was a totally unexpected  
offside! when i flush up and begin fantasizing about romance  
transmit the radio waves, and make them reach!  
isn't that your job, guys?  
if i don't get a move on i'll fall behind  
once caught on to the genius rhythm  
i'll tell you all about my legend H, He, Li, Be, B, C, N, O, F, Ne  
Na, Mg, Al, Si, P, S, Cl, Ar, K  
Ca, Sc, Ti, V, Cr, Mn, Fe, Co  
Ni, Cu, Zn, Ga, dal segno! [2] hey, hesitating isn't gonna get you anywhere  
like i always say, one touch is all it takes to set 'em off  
i've set you ablaze, now isn't that more than enough?  
go on and knock out -- yes, that'd be for the best  
on monday, i practically breeze through quantum mechanics~  
on wednesday, i'm already a master in training at archery and naginata!  
on friday, i got the history of japan,  
the world and the entire universe all perfectly nailed down!  
hurry up, guys, follow my lead after they way i've been pushing you around, how come you still don't run away?  
i'm at a loss of words; i'm diving into something i haven't faintest idea what! when i start to get notions of pani-pani-panic  
absorb the radio waves! i demand an explanation that's also part of your job, guys  
teach me, don't be stingy  
once enraptured by the genius melody  
i wouldn't mind if you sat next to me  
feeling your heart beat, i become conscious about how my brain shuts down,  
leaving me in utter bewilderment for the first time in my life! when i flush up and begin fantasizing about romance  
transmit the radio waves, and make them reach!  
isn't that your job, guys?  
if i don't get a move on i'll fall behind  
once caught on to the genius rhythm

i'll tell you all about my legend  
when i start to get notions of pani-pani-panic  
absorb the radio waves! i demand an explanation
