You tried to hide it
but you couldn't keep it all to your self
(oh the way you should)
You tried to fight it
but you had side with everyone else
(thought it'd be so good)

Did you know
did you care
are you low
or just unaware

Trust
won't amount to much unless you make it
sacred
it's never just
enough to say the word unless you name it
oh oh oh
sacred

It's like we never started
you and I now we're at the end
(yeah no we're nowhere)
I hate to show it
but just knowing that we're no longer..

...Friends
really hurts
but I guess
that's the way it works

Trust
won't amount to much unless you make it
sacred
it's never just
enough to say the word unless you name it
oh oh oh
sacred
oh oh ooh

How could you bail and sell me out

yeah yeah
I feel like we failed won't you tell me how

Do you know,
even care
are you just unaware

Trust
won't amount to much unless you make it
sacred
it's never just
enough to say the word unless you name it
oh oh oh
sacred

Wont amount to much unless you make it
Sacred
It's never just enough to say the word unless name it
oh oh ooooh

Oh oh
Sacred

Sacred x2

Ooh sacred
