I will be there for you
If it all crumbles down
And I will be there for you
When your feet touch the ground
And I'll clear the earth for you
If you need the stars to dream
And I'll make a flame for you
To keep your spirit clean
My angel, mystery angel
My angel, my mystery angel
You there for me when I couldn't find my self
Open the door for me
When I see no way out
And you were there with me
When I was too young to see
Bringing music through
With your wisdom and peace
My angel, my mystery angel
My angel, my mystery angel
My angel, my mystery angel
My angel, my mystery angel
Lookin' back now I don't think I'll ever
understand
Universe of this bell and so many different ends
take some time just to sit with each one just to see
patiently the right one will hold on to your
hold on to your free
My angel, mystery angel
My angel, my mystery angel
My angel, my mystery angel
My angel, mystery angel
My angel, mystery angel
My angel, mystery angel
