Farewell to the west now  
And welcome, to the east  
Farewell to the one who raked, the sand beneath my  
feet  
Thank you for the space we shared, and the heart and  
soul my friend  
I will see you through the colours, between the  
mountains as the sun descends

Oh we twisted and we reflected upon a grin  
Common ground we walked upon, with common  
feelings & common things  
Yes it is a cruel world, but there is solace amongst the  
sin  
Peace to you for now we'll share again, we'll share  
again

Farewell to the west now  
My mind is open to the east  
To all the new faces, new minds & things to see  
I am alone here, and my heart at times it weeps  
You will see me through the colours, as the sun sinks in  
the sea

Oh we twisted and we reflected upon a grin  
Common ground we walked upon, with common  
feelings & common things  
Yes it is a cruel world, but there is solace amongst the  
sin  
Peace to you for now we'll share again, we'll share  
again

Oh we twisted and we reflected upon a grin  
Common ground we walked upon, with common  
feelings & common things  
Yes it is a cruel world, but there is solace amongst the  
sin  
Peace to you for now we'll share again, we'll share  
again  
We will share again  
We'll share again  
Hmmm, hmmm, oh my friend we'll share again

Oh we will share again
