Lyrics/Music B.Green/S.H.Stept

Never liked a copy cat
Or the things they do
But it seems that you!
Must have changed my mind
Me, yes you

I became a copy cat
And I love it too
All the things you go for
Are the things I go for

I like what you like
Beans and Oyster stew
And I like what you like
On account'a I love you

I go where you go
Any place'll do
And I go where you go
On account'a I love you

Your my chocolate sundae
Your my sugar bun
Apple pie and lollipop
All rolled into one

I say what you say
Even black is blue
And I say what you say On account'a I love you
