Lyrics/Music Mack Gordon/Harry Warren

Here's a little tune that always helps you when you're
blue

Just a pretty little ditty, and you ought to learn it, too

It will cheer you up whenever skies above are gray

When things go wrong

Its just the song

To chase your cares away

Away, away, and ev'rything will be okay

Tra-la-la-la, what a merry world we live in

Tra-la-la-la, all of it is yours and mine

So wear a smile, sing a little while it's raining

And through the clouds, ev'ry little star will shine

Tra-la-la-la, what's a little bit of trouble?

You live and learn things are gonna turn out fine

Just feel that way

And ev'ry little day

Will seem like spring

If you'll just sing

Tra-la, tra-la-la-la-la
