I'm always at fate from behind
knocking on wood I'm not blind
I felt that right now I'm much old
Chasing a shadow can't hold

Keeps lingering on when it's bad
Gets cloudier, wheres the rain?
Gets Pretty cold every year
But somehow this will also change

Coz I'll keep walking on to the other side
I'll keep looking on the bright
Just in case the sun starts to shine
Don't wanna be blamed coz I can hide

There will be many seasons to bear
Most will end some will stay
I have to get rid of this disease
Staying at home doesn't please

I wanna get over this
sleep at night it must be a bliss I
Wanna be sure theres an end to
Every situation, I can't pretend

Coz I'll keep walking on to the other side
I'll keep looking on the bright
Just in case the sun starts to shine
Don't wanna be blamed coz I can hide

N I'll keep walking on to the other side
I'll keep looking on the bright
Just in case the sun starts to shine
Don't wanna be blamed coz I can hide
