Lets start it like this

Yo... it's official  
The saga begins  
Begin war  
The x  
Be the first to set it off  
Crash you mutherfuckers  
X-ecutioners  
POW  
Yo...get you whole place done  
Wha  
Get your beat on  
You know i bring it to you live...  
You heard of us?  
You know i bring it to you live  
Nobodies tighter  
We're leaving  
Its an a feeling  
Word  
You know you love it  
Chopping niggaz up  
That's how we do it  
Its an a feeling  
Word  
You now you love it  
Chopping niggaz up with the diabolical sound commin  
through your speaker
