I think its time I let you know  
That i can see your hurting soul  
You need to breathe and let it go  
I dont wanna see you feel this low

[Bridge]  
Now here we stand  
Situation at hand  
Its not how we planned  
Just take my hand

[Chorus]  
But I can't bear to see  
You soo unhappy  
Won't someone snap me out of this mess  
I want you here with me  
But you're soo unhappy  
Won't someone snap me out of this mess

Im loving you with all my soul  
Lets plant a seed and watch it grow  
Together we can mend this hole  
Its you and me lets take control

[Bridge]  
lets do what we can  
just take my hand

[Chorus]

I plead for us  
Cause its you i trust  
Lets do it for us  
Just take my hand

[Chorus X2]
