(Grevet/Soares)
All trouble that happen in our world
Is a bleedin' from the continental hearts
That's why more than before I need you
So stop trippin' on me
World's routine doesn't accept whims
I'll never understand why you wanna make a double
trouble
C'mon, release me!
I don't wanna be a rancid man
If you want to lock me up
I'll tear down your castle of sand
Yeah, I will freeze you
Till change your mind
And if you still preach the sermon
I will neglect you
Double blue - we're goin' crazy
Double blue - we're goin' crazy
Double blue - I'm goin' crazy
Call the mob to help you
Say fairy stupid things
And they'll go to save you.
