BREAK IT DOWN

when i'm talking to you
its like talking to wall
my baby, its that forever love
when i'm calling you
you calling me too
but we said, we gonna live together

chorus

break it down break it down break it down
it's course nothing to smile,break it down
break it down break it down,ba uh uh uh uh uh
tell me honey

together we can leave
so like,we forgot the past
nothing is love without your smile
remember sometimes
when i'm feeling lonely
and you did nothing,nothing at all

chorus
