DONT TOSSING

Give me the reason of losing you
outside with no one to love
tell me something yeah call me
you leave me without a word

Give me the reason of this hard shock
someday,i cant stand no more,no more
you've been my dream for a long time
and now i'm here very sad

chorus

don't tossing and turning my love down
i'm not meant to live alone
don't tossing and turning my love down

its driving me crazy to think about
that you couldn't be my sweetest love
baby don't you love me anymore
cant you come around tonight
