I'm afraid to go up to the second floor  
If you wanted to work it out why'd you lock the door  
I thought i was good at loving you  
But our light went out when you wanted it to  
I wish you the best, i'm headed west  
it's all i know to do

I will fall, I will fall if you come around  
Just when I think my heart break settled down  
I will fall, I will fall if you come around

When we said goodbye it was forever  
And I spent the last year piecing my life together  
Just when I think I've let you go  
Your song's playing on the radio  
And just like that it rushes back  
every part of you

I will fall, I will fall if you come around  
Just when I think my heart break settled down  
I will fall, I will fall if you come around

I will fall, I will fall if you come around  
Just when I think my heart break settled down  
I will fall, I will fall if you come around  
Just when I think my heart break settled down  
I will fall, I will fall if you come around
