"Shine"

Visit "[Shine](#)" on MotoLyrics.com

I know you're tired
I see your eyes cry, again
I see you fall
And I will fall down, with you
Hold on

Shine like the rivers that sent you
Baby, we'll run do far away from here
I've loved you so long that I can hardly remember
What it was like without you here

Your heart breaks down
When no on is around, to see
Oh, no
Life lets you down
That don't seem fair at all, to me
My Love

Shine like the rivers that sent you
Baby, we'll run so far away from here
I've loved you song that I can hardly remember
What it was like without you here

(Instrumental Break)

Shine like the rivers that sent you
Baby, we'll run so far away from here
I've loved you so long that I can hardly remember
What it was like without you here
What it was like without you here
