You were probably asleep  
When I lit the match  
Poured the gasoline  
Over my sorry head  
What were you dreaming of  
During that blissful sleep?  
Its not your problem now

It's over, at least I thought it was  
It's over, it never ends  
It's over, at least I thought it was  
It's over, it never ends

I'm glad I got this out  
I feel ridiculous  
I'll see you later on  
I won't be missed

It's over, at least I thought it was  
It's over, it never ends
