luber, i want to hug you  
i want to tell your mom to love you  
'cause my mom loves me  
she taught me to use the yellow pages  
and my dad loves me  
he listens when i have a fucking thing to say

you got your dreams  
they're about the Birthday Party  
i've got my dreams  
whatever they used to be

luber, on your birthday  
i will answer your 1000 questions  
luber let me help you  
it will ease my conscience  
what would it be  
if you knew were saving my soul  
and what would you think  
if you knew you were the toast of my town
