If you say my dancing is effeminate
I will never dance again

And if you say my logic is irreversible
then things will always be the same

Master of the bump
and master of the hustle
But i not i'm not your
only sweetheart

And if you note
I'm smacking of a savagery
Know its essential to my masculinity
and if you say my dancing is effeminate
i will never dance again

Master of the bum
and master of the smurf
But i'm not your timeless one and only
