"Nice Day"

Visit "[Nice Day](#)" on MotoLyrics.com

Well it's a nice day
We're going to the park but
We're gonna do it my way
'Cause when I get that spark you know
I've got it on, I'm on

Well every time I feel, it's so hard
I need you here tonight
You make things right
Well every time I see you, it's gonna be a nice day

But if it's my way
We could let it start
I know you think that I'm gay
But I just play the part so we get it on, and on

Well every time I feel, it's so hard
I need you here tonight
You make things right
Well every time I see you, it's gonna be a nice day
