[Chorus:]

I can give you up
Assume me love
I will share you with another girl
I swear this true
I'll do anything
Cuz the days with your loving was everything

[Verse One:]

I know about your girl at home
I know everything about you
I know what it's her you're going to
At the end of every night
I can tell you want me
And there's something that you're missing
Other wise we wouldn't be here
Hugging and kissing

[Bridge:]

He's got the sexy hear
That turns me on
When talking on the phone
I know what's wrong
No I can't resist
The way we kicking it
I just can't leave without him

[Chorus:]

I can give you up
Assume me love
I will share you with another girl
I swear this true
I'll do anything
Cuz the days with your loving was everything
I can give you up
Assume me love
I will share you with another girl

I swear this true
I'll do anything
Cuz the days with your loving was everything

[Verse Two:]

Everyday I tell myself
That it's time to do the right thing
Gotta walk away before
Your baby gets to know
But just as I pick up the phone
And I start to dial your number
The devil on my shoulder
Says 'Damn it girl don't let him know'

[Bridge:]

He's got the sexy hear
That turns me on
When talking on the phone
I know what's wrong
No I can't resist
The way we kicking it
I just can't leave without him

[Chorus:]

I can give you up
Assume me love
I will share you with another girl
I swear this true
I'll do anything
Cuz the days with your loving
